**Date of birth**: 13/03/1998 **Nationality**: Spanish

### ABOUT ME

I am finishing my studies to become a higher technician in Development of Web Applications.

I have skills in Java, Php, Mysql, Ruby on Rails, Javascript, Spring Boot, I would like learn more about Docker and Apache 2 which I have used previously but not so much and I would like start to learn Node JS or Mongo DB.

We are starting to learn React in class soon.

My interests are things related with Web development, especially Ruby on Rails, Javascript, React, Mysql or MongoDB, Docker and Apache, but I am willing to learn other technologies.

I consider myself as an autodidact, hard worker, communicative and I can face new challenges successfully.

Do not hesitate to contact me if you have any question.
